“ Kathy was a very important person In my life and in the life of Baptist College of Health Sciences. She was very supportive prior to my mother's death, and we spent many hours together after work at the Bowld Hospital.
As a founder of the College, Kathy always shared her wisdom and expertise with colleagues and students. She was also held in high esteem professionally on the national stage.
She encouraged me in my own battles with cancer and then showed such grace and courage in her own. Kathy made quite an impression on all who knew her.

“ Kathy was both a special friend and a treasured colleague to me. I valued her friendship, support, insight and wisdom as well as the many moments of laughter we shared together. She was one of the most positive people I have ever met, and her deep faith was a true source of inspiration for me. She was loved and admired by her students and was the consummate professional role model.

My life is richer because of knowing her and being blessed with the precious gift of her friendship. May her family be comforted with special memories of just how much she loved them. BettySue McGarvey

“ Years ago, Kathy was a tremendous mentor and support to me during a time of needed growth in my life. The intensity of her convictions in that gentle, Southern voice which could quickly change to laughter will always be part of me. Kathy loved God, adored her family and friends and was always ready to be of service in any capacity. She will be so very missed but I was so very blessed to have known her.

“ I will always remember Kathy as such a graceful, charming, southern belle type professional. Words cannot describe the respect and admiration I have for her leadership, mentorship, work ethic and devotion to the SNMMI-TS. I consider myself lucky to have worked with her through the years. May she rest in peace in heaven.
